PROFESSIONAL EXPERIENCE

Software Engineer

Jun 2023 - Present

- As a Software Engineer at Icomm Technologies, I lead the development of a payroll management system, optimizing processes such as salary calculations, tax deductions, and employee record management. I specialize in building responsive UI with **Angular**, implementing secure back-end services using **Node.js**, and managing database interactions with **SQL Server** to ensure data integrity and system performance.
- I also design and develop **RESTful APIs** to facilitate seamless front-end and back-end communication, working closely with cross-functional teams to gather requirements and deliver efficient, scalable solutions.

Internship

Jan 2023 - Jun 2023

- During my internship at Icomm Technologies, I gained hands-on experience in both front-end and back-end development. I built responsive UI using **Angular** and developed secure APIs with **Node.js**. I also worked with **SQL Server** to manage database interactions, strengthening my skills in data integrity and system architecture. This experience has enhanced my technical expertise for future software development challenges.
